Remarks

This stunning Parkland colonial offers an ideal combination of sophisticated design and eco-friendly features. This was the model home for Whispering Farms. With over 3,200 sq. ft. of living area (not including the lower level with already installed egress window), discover a soaring two story great room, huge eat in kitchen, and inviting sunroom. The garage is heated with AC. Not only does the home have true 3 zone HVAC, but the sellers added a solar system that dramatically reduces energy consumption. Consider: Gas average bill last 12 months- \$96.77/ mo. PPL electric, 2024 average- \$52.55! With a school bus stop just steps away, and a location that offers easy access to...everywhere...your choice is easy. Call today for your personal showing.
